

FLUTTER DEVELOPER

Software engineer with a B.E. in Computer Science, specializing in Mobile Programming. Possessing over 3 years of hands-on experience in mobile development, proficient in both Flutter and Android native platforms. Seeking opportunities as a software developer within a highly skilled team, with the goal of advancing towards senior positions in the future. Committed to continuous learning and contributing to innovative projects.

TECHNICAL SKILLS

Languages	Dart, Python, Java, C
Frameworks	Flutter, Bootstrap
Libraries	React.js
Database	MongoDB
Prototype tool	Figma
Familiar	Data Structures and Algorithms, MongoDB Atlas
Dev Tools	Android & Visual Studio Code, Git, GitHub, Postman

PROJECTS

DR HERO (Doctor appointment)

Developed a healthcare platform application.

- Application for remote medical consultations with qualified healthcare professionals.
- Dedicated apps for accessing medical information, scheduling appointments, and receiving health recommendations.
- Prioritizes patient privacy and security, adhering to stringent data protection regulations to safeguard patient information and maintain confidentiality.
- Services used: **AWS, Amazon Cognito Social SignUp, Google map, Local & Firebase notification, Webview video call** and **Strip payment gateway**. State Management: **Provider**.
- Website: www.drhero.ae
- **PlayStore link:** [Play store](#) **AppStore link:** [App store](#)

XIAFIT (Fitness app)

Developed a Personalized Health & Fitness App with Coach Interaction application.

- Developed a comprehensive health and fitness application designed to cater to individual user needs, integrating diet plans, workout sessions, and personalized coaching. Implemented a feature allowing users to access personalized diet plans based on their health goals and dietary preferences.
- Interactive Coaching: Integrated a real-time chat functionality enabling seamless communication between users and assigned coaches for guidance, motivation, and support.
- Video Workout Guides: Incorporated video tutorials for each workout session, enhancing user understanding and adherence to proper exercise techniques.
- Services used: **Amazon Cognito Social SignUp, Video Player, Local & Firebase notification** and **Socket Chat**. State Management: **Provider, GetX**.
- Website: www.xiafit.com
- **PlayStore link:** [Play store](#) **AppStore link:** [App store](#)

CaseTracker

Developed a Incident Recording and Tracking Application.

- Developed a comprehensive application utilizing NFC technology to facilitate the recording and tracking of various events and incidents.

- Implemented NFC technology to enable users to swiftly record incident details by simply tapping their NFC-enabled devices. This streamlined approach reduces manual data entry errors and ensures accurate and timely recording of critical information.
- Technologies Used: **NFC Technology, GPS Location Services, Data Management and Organization Frameworks.**

LETSCONTACT

Developed a NFC-Based Contact Sharing Application.

- Developed a cutting-edge application leveraging NFC (Near Field Communication) technology to streamline the process of digitizing and sharing business or profile cards. The application revolutionizes traditional contact sharing methods by enabling users to effortlessly exchange digital business cards using their NFC-enabled devices.
- Technologies Used: **NFC Technology, GPS Location Services, QR & Barcode scanner.**
- **Web Application:** www.letscontact.digital

Contact Share Application

Developed a Personalized Digital Profile Sharing Application.

- Developed an innovative application aimed at empowering users to personalize their digital profiles according to their preferences. The application provides a user-friendly interface with a wide array of themes and customizable actions.
- Integrated a variety of actions that users can choose to customize their profiles further.
- Technologies Used: **NFC Technology, Encryption and Authentication Protocols.**
- **Web App:** www.cardy.live

EXPERIENCE

Nissi Software Systems

Software Engineer

Bangalore, Karnataka
October 2021 - March 2023

- Developed cross-platform mobile applications using Flutter framework.
- Integrated RESTful APIs for data retrieval and management.
- Utilized state management techniques such as Provider and Bloc for efficient application state handling.
- Collaborated with designers and backend developers to ensure seamless integration of frontend and backend functionalities.
- Conducted code reviews and participated in team meetings to maintain code quality and project progress.

Hashgate IT Technology

Flutter developer

Al Jadaf, Dubai
May 2023 - Present

- Collaborated with cross-functional teams to deliver high-quality Flutter applications meeting strict deadlines.
- Experience with state management solutions such as Provider, Bloc, and GetX.
- Familiarity with RESTful APIs integration and handling asynchronous data.
- Demonstrated ability to troubleshoot and debug complex issues, ensuring smooth app performance.
- Managed project tasks and timelines efficiently using project management tools like Jira or Trello.
- Engaged in self-directed learning and experimentation with new technologies and frameworks to broaden skillset and stay competitive.

EDUCATION

Higher Secondary

Saqafathul Islam Higher Secondary School Ummathur

Kozhikode, Kerala
2014 – 2016

B.E in Computer Science

Sairam College of Engineering

Bangalore, Karnataka
2016 – 2020
